

Discussion

Biocurdin supports healthy estrogen metabolism for men and women.* Estrogen dominant conditions are associated with both environmental toxins mimicking estrogen and compromised metabolism of estrogens.* DIM (diindolylmethane), enhanced by curcumin and black pepper extract (BioPerine®), has been found to increase levels of “good” estrogens (2-hydroxyestrogens) while reducing levels of “bad” estrogens (16-hydroxyestrogens) and may result in a relief of symptoms associated with estrogen dominance.* DIM is an advanced metabolite of Indole-3-Carbinol, the indole found in cruciferous vegetables. Indoles support healthy estrogen metabolism and an optimal ratio of estrogen metabolites.* The BioPerine® / curcumin combination has demonstrated a dramatic improvement in the bioavailability, extent of absorption, and serum concentration of the bio-active curcuminoids.*

Supplement Facts

Serving Size: 2 Capsules
 Servings Per Container: 60

| | Amount | %Daily Value |
|--|--------|--------------|
| Curcumin (from turmeric extract) | 600 mg | ** |
| DIM (diindolylmethane) | 150 mg | ** |
| BioPerine®† (from piper nigrum/ black pepper extract) | 2 mg | ** |

** Daily value not established.

Directions: Take two capsules daily or as directed by your healthcare practitioner.

Other Ingredients: HPMC (vegetable capsule), MCC (microcrystalline cellulose), rice flour.

Contains No: Wheat, gluten, corn protein, yeast, soy, animal or dairy products, egg, fish, shellfish, tree nuts, peanuts, artificial colors, sweeteners or preservatives.

Caution: If you are pregnant or nursing, consult your healthcare practitioner before use. Keep out of reach of children.

Storage: Keep tightly closed in a cool, dry place.

This Formula Meets or Exceeds cGMP Quality Standards.
